

Import Photos into Photoshop Elements

How to import photos into Photoshop Elements (version 3 & above)...

Open Photoshop Elements

- OPEN 'Photoshop Elements'
- CLICK 'View and Organize Photos' icon.
- CLICK 'File,' 'Get Photos,' or the 'Get Photos' icon in the toolbar.

Find Photos by Searching

- CLICK 'By Searching'
- CLICK 'Search'
- CLICK 'Select All' to import all files and folders, or HOLD the 'Ctrl' key and CLICK on specific files/folders
- CLICK 'Open'

Import Specific Photos to Elements

- CLICK 'From Files and Folders'
- HOLD the 'Ctrl' key and CLICK files/folders you want
- CLICK 'Open'

You could also CLICK on files in a folder and DRAG them into the organizer.

Import Photos from a CD/DVD

When you select photos from a CD/DVD, either click the box if you only want to view photos offline (requires the CD to view), or do not click the box, saving the photos to your computer.
