

Photoshop Elements – Adding Text

Use the **Type Tool**  to add text to an image.

Change font and size in the options tool bar above the image.

Click on the image and type the text.

Use the **Move Tool**  to select the text object and drag the text around on the screen.

With the text selected, go to the **Effects Palette** and choose **Text Effects** in the **pop-up**.

Effects can be combined by choosing more than one in succession. Remember to **undo** if you don't like the results!
